

BIG GRIPPER2™

Screen Frame Clamping System with Micro-Registration

Big Gripper2™ shown with optional Accu-Glide™ Aluminum Vacuum Table, frame and Sidekick™ Frame Lifting Device.

ADVANTAGES

- Clamps hold large and small frames from 1.25" up to 2" high
- Holds square and round (roller) frames
- Outstanding stability for precision X/Y micro-registration
- Machined for tolerance pivot
- Extruded rear frame holder provides strong frame support
- Mount clamps to any printing base or table using only two drilled bolt holes
- Off-contact is easily adjusted

A.W.T.'s heavy-duty Big Gripper2™ Screen Frame Clamping System is used with wood and metal frames of all shapes and sizes. The adjustable frame clamps tightly grip square and round frames to ensure rigidity. The Big Gripper2 uses a heavy-duty, single piece aluminum frame holder to ensure the best support for all frames. Print repeatability and precise X/Y registration are assured.

The Big Gripper2 holds frames from a minimum of 1.25" high to a maximum of 2.5". For thinner frames, inquire about our specially-made, custom-sized studs. The Big Gripper2 is used for single and multicolor jobs. Additional clamps are available for larger or heavier frames.

ADDITIONAL A.W.T. PRODUCTS

Heavy-duty, Reversible Sidekick

A.W.T.'s Sidekicks hold up your frame on the left or right side while screen printing. These sidekicks are designed to meet the

needs of printers on hand tables and one-man vacuum tables for small and large frames.

These clamp-on devices are constructed from gauge steel with spring action lift, and are easily assembled on frames. They come in two sizes and can work on frames up to 2" high

CAT. NO.	DESCRIPTION
SK-6R	6" right or left reversible sidekick - max. frame size: 30 x 45" (76 x 114cm)
SK-9R	9" right or left reversible sidekick - max. frame size: 48 x 80" (122 x 203cm)
