

Chemical Consultants INCORPORATED

Nutralize®

Concentrated Degreaser

GENERAL DESCRIPTION

NUTRALYZE® is a concentrated formula for degreasing and wetting all types of screen fabrics, including polyester, nylon, and stainless steel. **NUTRALYZE®** leaves the fabric free of oils, contaminants, and residues which will ruin the emulsion coating. **NUTRALYZE®** will dramatically reduce the incidence of “pin-holes” and “fish-eyes” when coating your screens with emulsion.

Quick Tip:

Be sure to Flood rinse the screen well. In this step, it is important to think of high volume and not high pressure water.

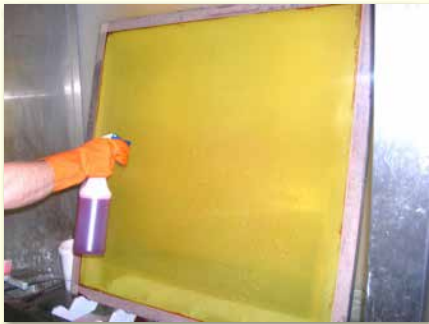

ADVANTAGES

- Pleasant Odor.
- Concentrated.
- Easy to use.
- Safe on all types of mesh.
- Non-flammable.
- Non Hazardous.
- Biodegradable / Drain Safe

Application

Nutralize® can be used in concentrated form, or it can be diluted up to 1 to 10 parts of water.

Nutralize® can be applied manually by a sponge, spray bottle, or pneumatic pump systems.

Step 1. After removal of ink, block-out, and emulsion, apply Nutralize® to the screen(both sides).

Step 2. Scrub screen with non-abrasive pad or brush.

Step 3. Flood rinse the screen starting at the top and washing all residue off the screen.

Packaging

1 quart

1 gallon

4 x 1 gallon case

5 gallon Pail

55 gallon Drum
