

### GENERAL DESCRIPTION

ProChem® ProBond is a high quality water-based pallet adhesive. As a screen printer's adhesive, ProBond is used on the pallet to secure garments for printing and can be used on belt printers. ProBond works equally well as a general purpose adhesive on many other substrates including: leather, rubber, paper, plastic, glass, wood, metal and concrete.

### ADVANTAGES

- Economical
- Water-based
- Low Odor
- Pressure sensitive
- Repositionable
- Quick Tack / Non-transferable
- No VOC (Volatile Organic Compounds)
- No solvent propellant
- Non-Hazardous / Non-Flammable
- Works on a variety of substrates
- Superior hold for heavy garments
- Heat resistant / not affected by flash cure station

### APPLICATIONS

#### SPRAY APPLICATION

Apply in a quick smooth "S" pattern covering the entire surface. Spray with a hand spray bottle, electric spray gun or air operated unit.

#### MANUAL

Drop a quarter size amount onto pallet and spread with a plastic spreader or rigid card stock. Cover entire pallet or area large enough to cover print area.

#### **Quick Tip:**

**Allow ProBond to become tacky (set-up) prior to securing garments.**

**Dried / cured adhesive can be cleaned with CCI's ProChem® 209R (Adhesive Remover)**

### **ADA 5**

Air operated adhesive spray system.
